Engineering Connections Quote

“I have been reminded through this just how far apart education and industry have grown. There is a definite need for improved Connections and Communications.”

- Brad Kemmerer, President, ABCO Automation Inc.

What was the most rewarding experience with Engineering Connections?

“Seeing the students reactions to topics they have not thought about ...” - School Staff

What was the most rewarding experience with Engineering Connections?

“Networking opportunity for staff since they rarely have time to get out into the community and industry.” - School Staff

What was the most rewarding experience with Engineering Connections?

“Learning from real-life engineers.” - Student

“Learning about payrolls & the experience you get.” - Student

What was the most rewarding experience with Engineering Connections?

“Learning all the possibilities for jobs out there.” - Student

“I learned more.” - Student

What would you suggest for Improving Engineering Connections?

“We should have field trips to companies or colleges that have engineering.” - Student

Most Interesting

“Hearing the different kinds of engineering industries.”

“Finding out about Geomatics at NCA&T.”

“How robots manufacture almost everything except other robots.”

Most Interesting

“How they make machines, and how long they are given to make them.”

“The information about barcodes.”

“The radio-wave bar code.”

Most Interesting

“I found the process of turning technology to a product kind of interesting.”

“The different jobs they have to do.”

“They sell things to China.”

Most Interesting

“How many companies you work for.”

“I found that it was interesting how two different people ended up in engineering.”

“How much the chip costs and how long it takes to make it.”

Most Interesting

“What their job was and who they work for.”

“How much freedom their jobs gave them.”

“The process of manufacturing chips & boards for electronics such as phones & auto.”

Most Interesting

“How they make the board and chips.”

“The fact that they design a lot of the technology I use.”

“The traveling aspect of her job.”

Most Interesting

“How secret it is.”

“Combat systems.”

“The planes.”

“Undersea cable.”

“The building of boats.”

Most Interesting

“The underwater systems.”

“Info about starting your own Business.”

“The internships.”

“The defense technologies.”

Most Interesting

“When he was explaining how much they make money.”

“Types of engineers. Skills needed.”

“How to track diesel ships.”

“I found it interesting that there were so many acronyms.”

Most Interesting

“How the TV (shows) travel across seas under them in fiber.”

“The stuff they put underwater.”

“End to end system provider.”

“Application to government.”

Most Interesting

“Everything.”

“The bubble things on the boat.”

“How underwater cables spread information.”

“Important info.”

Other Comments

“Thanks for the information on engineering.”

“It was great.”

“LOVE IT!!”

“Very, very, pleased...”

Other Comments

“I enjoyed it and I would like to see more companies represented.”

“Yeah just thanks for everything.”

“Good class.”

“Good job!”

Other Comments

“Love it~!!!!”

“They were very informative, nice and entertaining.”

“It’s a very interesting and good career.”

“Very interesting & presenters were not boring.”

Other Comments

“Thank you for the gifts.”

“Like the free stuff.”

“That’s so cool!!”

“They did an excellent job.”

Other Comments

“Great Job.”

“I had fun.”

“Great job!”

“Thanks for the info.”

Other Comments

“The speaker explained everything well. and he was very patient.”

“It is really good sessions.”

“I had a great time.”

“I love the lunch and learns....we should have them more often!!”
